Journal of CRYSTALLOGRAPHIC AND SPECTROSCOPIC RESEARCH is an international interdisciplinary medium for the rapid publication of research results in the general areas of crystallography and spectroscopy, reporting on new research in crystal chemistry and physics and its relation to problems of molecular structure. The journal publishes papers reporting structural studies of solids, liquids, gases, and solutions, involving spectroscopic, spectrometric, X-ray, electron and neutron diffraction, and theoretical studies. The journal addresses itself not only to crystallographers and spectroscopists, but also to chemists, physicists, biochemists, biologists, and all others who are interested in the results of structural investigations. *JOURNAL OF CRYSTALLOGRAPHIC AND SPECTROSCOPIC RESEARCH* publishes reports of original research as full-length Articles and Notes; it also publishes Book Reviews. All papers will be published in English, and every effort will be made to publish Articles and Notes within six months of the receipt of the manuscript. *JOURNAL OF CRYSTALLOGRAPHIC AND SPECTROSCOPIC RESEARCH* participates in the British Library Lending Division Supplementary Publications Scheme for the deposition of data. It is anticipated that the items deposited will be mainly crystallographic structure factor tables and spectroscopic frequency assignments, in cases where the referees do not recommend their publication.

The submission of a manuscript is a representation by its contributors that the manuscript has not been copyrighted, published, or submitted for publication elsewhere. Papers accepted for publication together with data pertaining thereto which are deposited with the British Lending Division (see Instructions to Contributors, 10) become the copyright of the publisher. The content of papers is the sole responsibility of the contributors, and publication in *JOURNAL OF CRYSTALLOGRAPHIC AND SPECTROSCOPIC RESEARCH* does not necessarily imply the Editors' and the publisher's concurrence.

JOURNAL OF CRYSTALLOGRAPHIC AND SPECTROSCOPIC RESEARCH is published bimonthly by Plenum Publishing Corporation, 233 Spring Street, New York, N.Y. 10013. Subscription orders should be addressed to the publisher. *JOURNAL OF CRYSTALLOGRAPHIC AND SPECTROSCOPIC RESEARCH* is abstracted or indexed in Chemical Abstracts, Chemical Titles, Current Contents, Referativnyi Zhurnal, Science Citation Index, and Solid State Abstracts Journal. © 1982 Plenum Publishing Corporation. *JOURNAL OF CRYSTALLOGRAPHIC AND SPECTROSCOPIC RESEARCH* participates in the program of Copyright Clearance Center, Inc. The appearance of a code line at the bottom of the first page of an article in this journal indicates the copyright owner's consent that copies of the article may be made for personal or internal use. However, this consent is given on the condition that the copier pay the stated per-copy fee through the Copyright Clearance Center, Inc. for all copying not explicitly permitted by Sections 107 or 108 of the U.S. Copyright Law.
